

MOLECULE™

AS SEEN AT THE PERFORMANCE RACING INDUSTRY TRADE SHOW

YOU CAN'T ALWAYS PLAY IT SAFE BUT YOU CAN KEEP IT CLEAN

To be fully effective against flames and heat, racing suits must be kept clean.

Breakthrough technology from Molecule Labs removes embedded oils, fuel, and soils that can create combustible hot spots.

MOLECULE™ WASH effectively cleans Nomex® and other technical fabrics in standard washing machines. It also contains an antimicrobial agent that inhibits the growth of bacterial odors.

Preserve the performance of your racing suit with MOLECULE™ WASH and SPOT CLEANER. Part of the Molecule™ Technical Fabric Care System.

Nomex® is a registered trademark of E.I. du Pont de Nemours and Company.

Wash
FOR TECHNICAL
FABRIC

Concentrated formula
effectively cleans
technical fabric in
standard washing
machines
